Work Experience

WezeshaNet Technologies Ltd Technical Lead

Jan 2025 - Present | Nairobi, Kenya

Leading development team in Automation and Solutions Department

- Leading a team of 4 developers in the design and delivery of a scalable SaaS platform for managing internet resellers, supporting hotspot and PPPoE users.
- Architected a microservices-based, event-driven system handling billing, router management, and marketing campaigns.
- Spearheaded DevOps and CI/CD pipelines to streamline deployment workflows and reduce downtime.
- Modularized core components for reusability across future company products, enabling more scalable development.
- Driving project management, code quality, and technical direction to bring the product to market efficiently and reliably.

WezeshaNet Technologies Ltd Associate Software Engineer

Jan 2024 - Dec 2024 | Nairobi, Kenya

In Automation and Solutions Department

- Automated repetitive internal processes with custom scripting, improving operational efficiency.
- Designed and implemented an AI-powered customer support chat widget integrated into the company's monitoring dashboard.
- Helped non-technical users gain actionable system insights by simplifying complex monitoring interfaces.

Virtualweb Technologies Frontend Developer

Jun 2023 - Dec 2023 | Germantown, MD (Remote)

In Development and Engineering Department

- Developed high-converting landing pages to increase visibility and engagement for company products.
- Designed and implemented in-house mobile applications that assisted in the automation of business procedures.

SiafuSocial Ltd. Technical Lead

May 2023 - Nov 2023 | Nairobi, Kenya

In Product R & D and Engineering Architecture Department

- Led a team of 2 developers to build and launch a SaaS platform to onboard 1,000+ freelance marketers and facilitate B2B sales for distribution companies.
- Integrated real-time order placement and commission tracking for vendors and marketers.
- Engineered a country-wide algorithm for route optimization and geographic mapping to aid delivery logistics across Kenya.
- Integrated third-party APIs and ensured system scalability under rapid user growth.
